

Manoj Goli

Platform Developer | IBM Canada

Ottawa, ON, Canada | +18736882312 | golimanoj127.sathyabama@gmail.com

Skill Summary

Cloud & Infra:	Kubernetes/OpenShift/GKE, Docker/Podman, GCP, Azure, AWS, IBM Cloud
DevOps/Automation:	Terraform, CI/CD (Jenkins, ArgoCD), Datadog, Grafana
Programming/Scripting:	Python (FastAPI, Flask, Pandas), Bash/Shell
Database Management:	MongoDB, DB2, MySQL, Elasticsearch / ELK stack, PostgreSQL
AI / ML:	IBM Watsonx.ai, Watsonx.governance, AWS Bedrock, GCP Vertex AI

Professional experience

Observability Platform Developer April 2026 - Currently working
A Fortune 100 Tech Client, IBM Canada

- Building and tuning **Instana dashboards** for CPU, memory, heap, OpenShift workloads, events, and alerts, defining KPIs and thresholds to improve actionable infrastructure visibility
- Creating **distributed tracing views** that map business transactions to underlying services using **spans, tags, service boundaries, context propagation, and metrics/log correlation**
- Automating **Instana agent deployment and administration** across **Linux, containers, Kubernetes/OpenShift**, including pre-checks, idempotent installs, rollback, logging, prod/non-prod separation, and policy tuning

Platform Developer July 2022 - Dec 2025

Client Engineering - Account: Federal Govt, Ottawa, IBM Canada

Secure Data Fabric – A Major Federal Social Development Department (2025)

- Integrated IBM Security Verify with a Match360 “Single View of Client” app, **building secure login/logout, session handling**, and attribute-based access **across 4 role profiles** for personalized stakeholder demos
- Containerized and deployed the React/Node app with **Docker, Kubernetes, and Quay.io**, reducing fresh environment setup from **~4 hours to <1 hour** including testing and enabling repeatable demos across **hybrid/GCP** environments

OpenShift & IBM Cloud Pak Platform Owner – Federal Client Engineering (2024–2025)

- Owned **OpenShift/OCP** and **ROKS** readiness for **federal PoCs, troubleshooting cluster health**, access, CP4D, DB2, OpenPages, **logs/events**, and **deployment blockers** across multi-node Linux/Kubernetes environments
- Supported **~6 engagements** per quarter by creating **OpenShift playbooks** and cheat sheets, **enabling peers to provision clusters**, unblock deployments, and accelerate PoC delivery and consumption planning

Centralized AI Governance – Federal Defence Agency (2024)

- Built and stabilized a **watsonx.governance** PoC for third-party model oversight across **GCP, AWS, Azure, GPT-3.5, Llama3, and AWS SageMaker**, containerizing **FastAPI/RAG services** and resolving DB2, GPU, and firewall blockers to validate cross-platform **AI governance**

App Support Team - Lead Sept 2020 - July 2022

co.maximbet.com - Carousel Group - iGaming

- Led 24/7** production support for iGaming platforms on **GCP/GKE** and **on-prem** Kubernetes, supporting high-availability workloads with a **zero-downtime focus**
- Built **Datadog dashboards** and alerting for metrics, logs, and service health, **reducing peak-time production failures from 100s to ~10**
- Drove incident triage, RCA, and customer issue reproduction within SLAs, **debugging React/Node, Kubernetes**, and infrastructure layers to **isolate root cause** and restore service quickly
- Managed **GCP IAM/RBAC**, Jira automation, **ArgoCD workflows**, and **50+ runbooks/KBs**, reducing support toil and enabling faster peer resolution
- Core Stack:** GKE, Kubernetes, On-Call, **Datadog**, ArgoCD, Jira, **OpenTelemetry**, Toil Reduction

Senior Analyst - IT Operations July 2016 - July 2018

HCL Technologies Pvt Ltd

- Stabilized high-volume **mainframe batch workflows** by automating recurring operations, leading incident triage/RCA, creating reusable runbooks, and supporting **on-prem to private cloud ETL migration** that improved application performance by **~15%**
- Core Stack:** Mainframe, Big Data/ETL, BMC Monitoring, ServiceNow, incident management

Soft Skills

- Entrepreneurial ability to simplify and to communicate clearly with **peers/clients/stakeholders**
- Can perform **individually** or in a **team** with an adaptable manner
- Excellent organization skills and ability to **prioritize** when faced with multiple tasks
- Efficient handling of fast-paced environments in an excellent and highly **customer-centric way**
- Able to exchange ideas in languages English, Hindi, and Telugu

Education

Master's in Electrical and Computer Engineering Sept 2018 - Jan 2020

Carleton University, Canada

Concentration: Data Analytics, Machine Learning and Advanced Electronics

Certifications

- HashiCorp's Terraform Associate, Sept 2025
- Certified Kubernetes Administrator (CKA)**
- Google's Associate Cloud Engineer (ACE)

Projects assets

- Retrieval-Augmented Generation (RAG) Demo** – Built an end-to-end RAG pipeline using **Watsonx.ai, Elasticsearch (ELSER), and Python**, enabling semantic document search and grounded LLM responses. Implemented ingestion, indexing, and summarization services, with API endpoints for chatbot-style queries
- Cloud Pak for Data on OpenShift installation cheat sheet

Co-curricular

Toastmasters International (2024–Present)

Active member for 1+ year in IBM Ottawa Toastmasters Club, currently serving as **Vice President of Public Relations**.

Delivered multiple speeches, and supported club growth by managing communications and promoting events.

Skills

Co-Creation

Engaging with clients through agile playbacks, translating complex technical concepts into usable solutions that drive measurable value

Customer Adoption and Health

Translate technical needs into success milestones, track risks early, and keep engagements moving with clear next steps.

Platform Development

Knowledge in cloud infra, APIs, Iaas, build, deploy, logging and configuration management. Ability to troubleshoot K8s, GKE and OCP clusters

AI/ML Tools:

Ability to work with frameworks like RAG and Langchain, LangGraph

Programming and Scripting

Develop AI applications using Python (FastAPI), Node.js or Develop quick UIs for AI apps using Streamlit, React

Decision Making

Data driven and business oriented decision making capabilities

Learning Aspirations

Enthusiasm for emerging technologies and resilience in tackling complex challenges.

Teaching Assistance

Experience

Teaching Assistant (TA) - 2019, Carleton University, Course: Digital Electronics
TA'ed more than **200** students on Digital Electronics, project development and Cloud
